

**REMARKS/ARGUMENTS**

This paper is in response to the Final Office Action dated June 6, 2005.

Original claims 1, 2, 3, 6, 7, 8, 10, and 11 are canceled.

Claims 4, 5, 9 and 12-25 are pending in the application.

Claims 4, 5, 9, and 12-25 stand rejected due to a defective oath. Specifically, the claims are rejected because the oath does not recite the error upon which reissue request is based. Applicant submits herewith a revised declaration. Exhibit A.

Claim 4 is objected to because "injection position" is repeated. Claim 4 has been amended to delete the repeated text.

The courtesies extended applicants' undersigned attorney during a personal interview on or about May 20, 2005 are appreciatively acknowledged.

**CONCLUSION**

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 06-2375, under Order No. HO-P02233US0 from which the undersigned is authorized to draw.

Dated: September 15, 2005

## SUBSTITUTE REISSUE DECLARATION BY THE INVENTOR

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and Joint inventor (if plural names are listed below) of the subject matter which is described and claimed

in patent number 5,839,514, granted \_\_\_\_\_, and for which a

Reissue patent is sought on the invention entitled

**MERGE, RE-EXAMINE AND REISSUE APPLICATION FOR METHOD AND APPARATUS FOR INJECTIONS COILED TUBING IN WELLS**

The specification of which

is attached hereto.

was filed on January 18, 2000 as reissue application number 09/484,260  
and was amended on \_\_\_\_\_  
(if applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described Below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening Reissue, such must be stated with an explanation as to the nature of the broadening:

The original patent claimed less than I had right to claim. To address this error, the claims were broadened by removing the "mast" limitation from claim 4. The mast limitation was not needed to patentably distinguish over the Vita International brochure that was cited in the Supplemental Disclosure Statement filed on May 1, 2000, or any other cited reference.

The original patent also claimed more than I had a right to claim in view of the Vita International brochure. To address this error, original claims 1, 2, and 3 were cancelled and claim 4 was rewritten in independent form with the following limitations:

a frame having a front end and a back end;  
opposed bullnose arms mounted to said frame;  
a tubing storage spool removably mounted to said bullnose arms, said tubing storage spool having said coiled tubing stored thereon;  
an injector reel rotatably mounted to said frame; and  
a drive mechanism attached to said injector reel to rotate said injector reel;  
wherein said bullnose arms are vertically adjustable to accept varying tubing storage spool diameters.
